

DATE: 6-4-23..

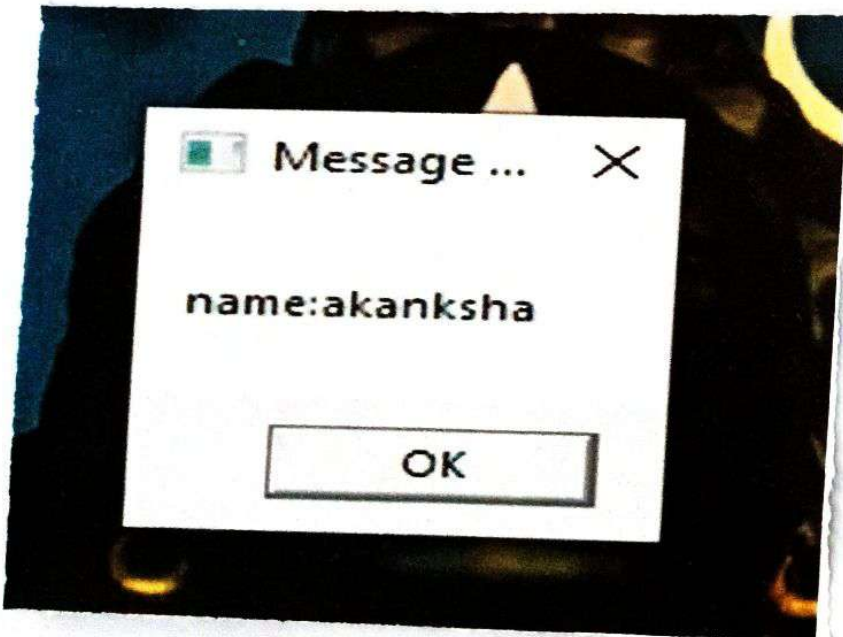

EXP. No. 3

3. Create a bot in which you have to name the student and his/her marks in three subjects. Display complete information of student in message box.
- First of all we go to sequence and go to the assign and drag it.
 - Then set the variable with the help of control & K in assign and give the name and marks in Integer datatype.
 - Then we also write message box which tells us about marks with the help of ToString.

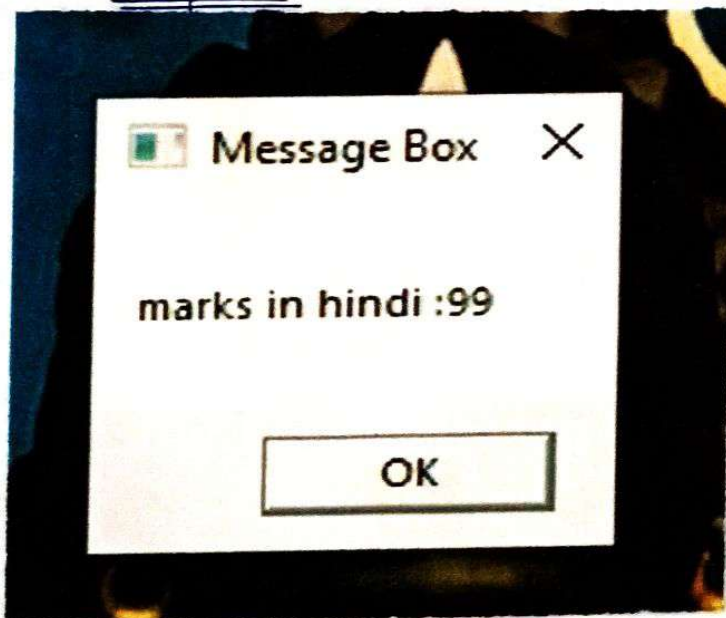

Step 1

Sequence of
Student Info

Output 1

Name of the Student

DATE 6-4-23EXP. No. 3Output 2: Marks in EnglishOutput 3: Marks In HistoryOutput 4: Marks In Hindi
